

Chronograph W2

The sports chronograph W2 is the symbiosis of a sports and a classic chronograph with a special mechanism for reading the time and striking modern design. The sports chronograph has centrally mounted classic hands for minutes and for seconds, however, the hour digits are marked by a disc in stainless steel.

On the disc itself there is a section with an integrated orange indicator tip, which according to the latest trend and also in orange, marks the hour digit. The main dial disc is decorated in carbon fiber. The dial discs have a black background and the digits are in striking orange (clock hours at 3, small seconds at 9 o'clock, minutes at 6 o'clock, date display at 4:30 o'clock).

The black, perforated rubber band from the precious chronograph can be closed with a stainless steel folding clasp. The crown is made of stainless steel (with black rubber) and is carved with the FELDO characters. The hands are also made of stainless steel and have orange rubber linings. The sporty dynamic design and functionality make this sports chronograph a unique sports watch.

Specifications:

- 45 mm case diameter for the sports chronograph.
- Stainless steel case.
- Japanese Quartz Movement Caliber 6S20 (Miyota) with 4-year battery.
